THANDOKUHLE NDLEBE

SOFTWARE DEVELOPER

thandotydx@gmail.com | *github.com/ThandoDev* | *LinkedIn*

SOFTWARE DEVELOPER

Solid foundation in software development principles, design patterns, and best practices. Proficient in front-end web development technologies with a basic understanding of back-end principles. Proven ability to collaborate effectively in team environments, utilizing strong communication and problem-solving skills. Passionate about learning new technologies and eager to contribute to innovative projects that make a real-world impact.

PROJECTS

JOKE GENERATOR | simple HTML, CSS, and JavaScript project. Click the button and enjoy a random joke fetched from an external API. A fun way to brighten your day!

EVENT LAB | Collaborated with a team of three developers to build a web-based ticketing platform using JavaScript, Bootstrap, HTML, and CSS.

UBER BEAUTY SERVICES APP | This is a landing page for a Uber beauty services app called "Beauty Dash". The desing is made to be aesthetically pleasing to the eyes.

WEBFLOW WEBSITE | Designify is a graphic design service provider offering logo design, poster design, and brand identity services. The website showcases their portfolio and allows clients to easily request quotations online.

E-COMMERCE APP | Collaborated with two other developers to create a comprehensive e-commerce iPhone app, focusing on UI development, state management, navigation, Redux integration, styling, and thorough testing.
